Beer Sheva

Prof. Burt Kotler Lab

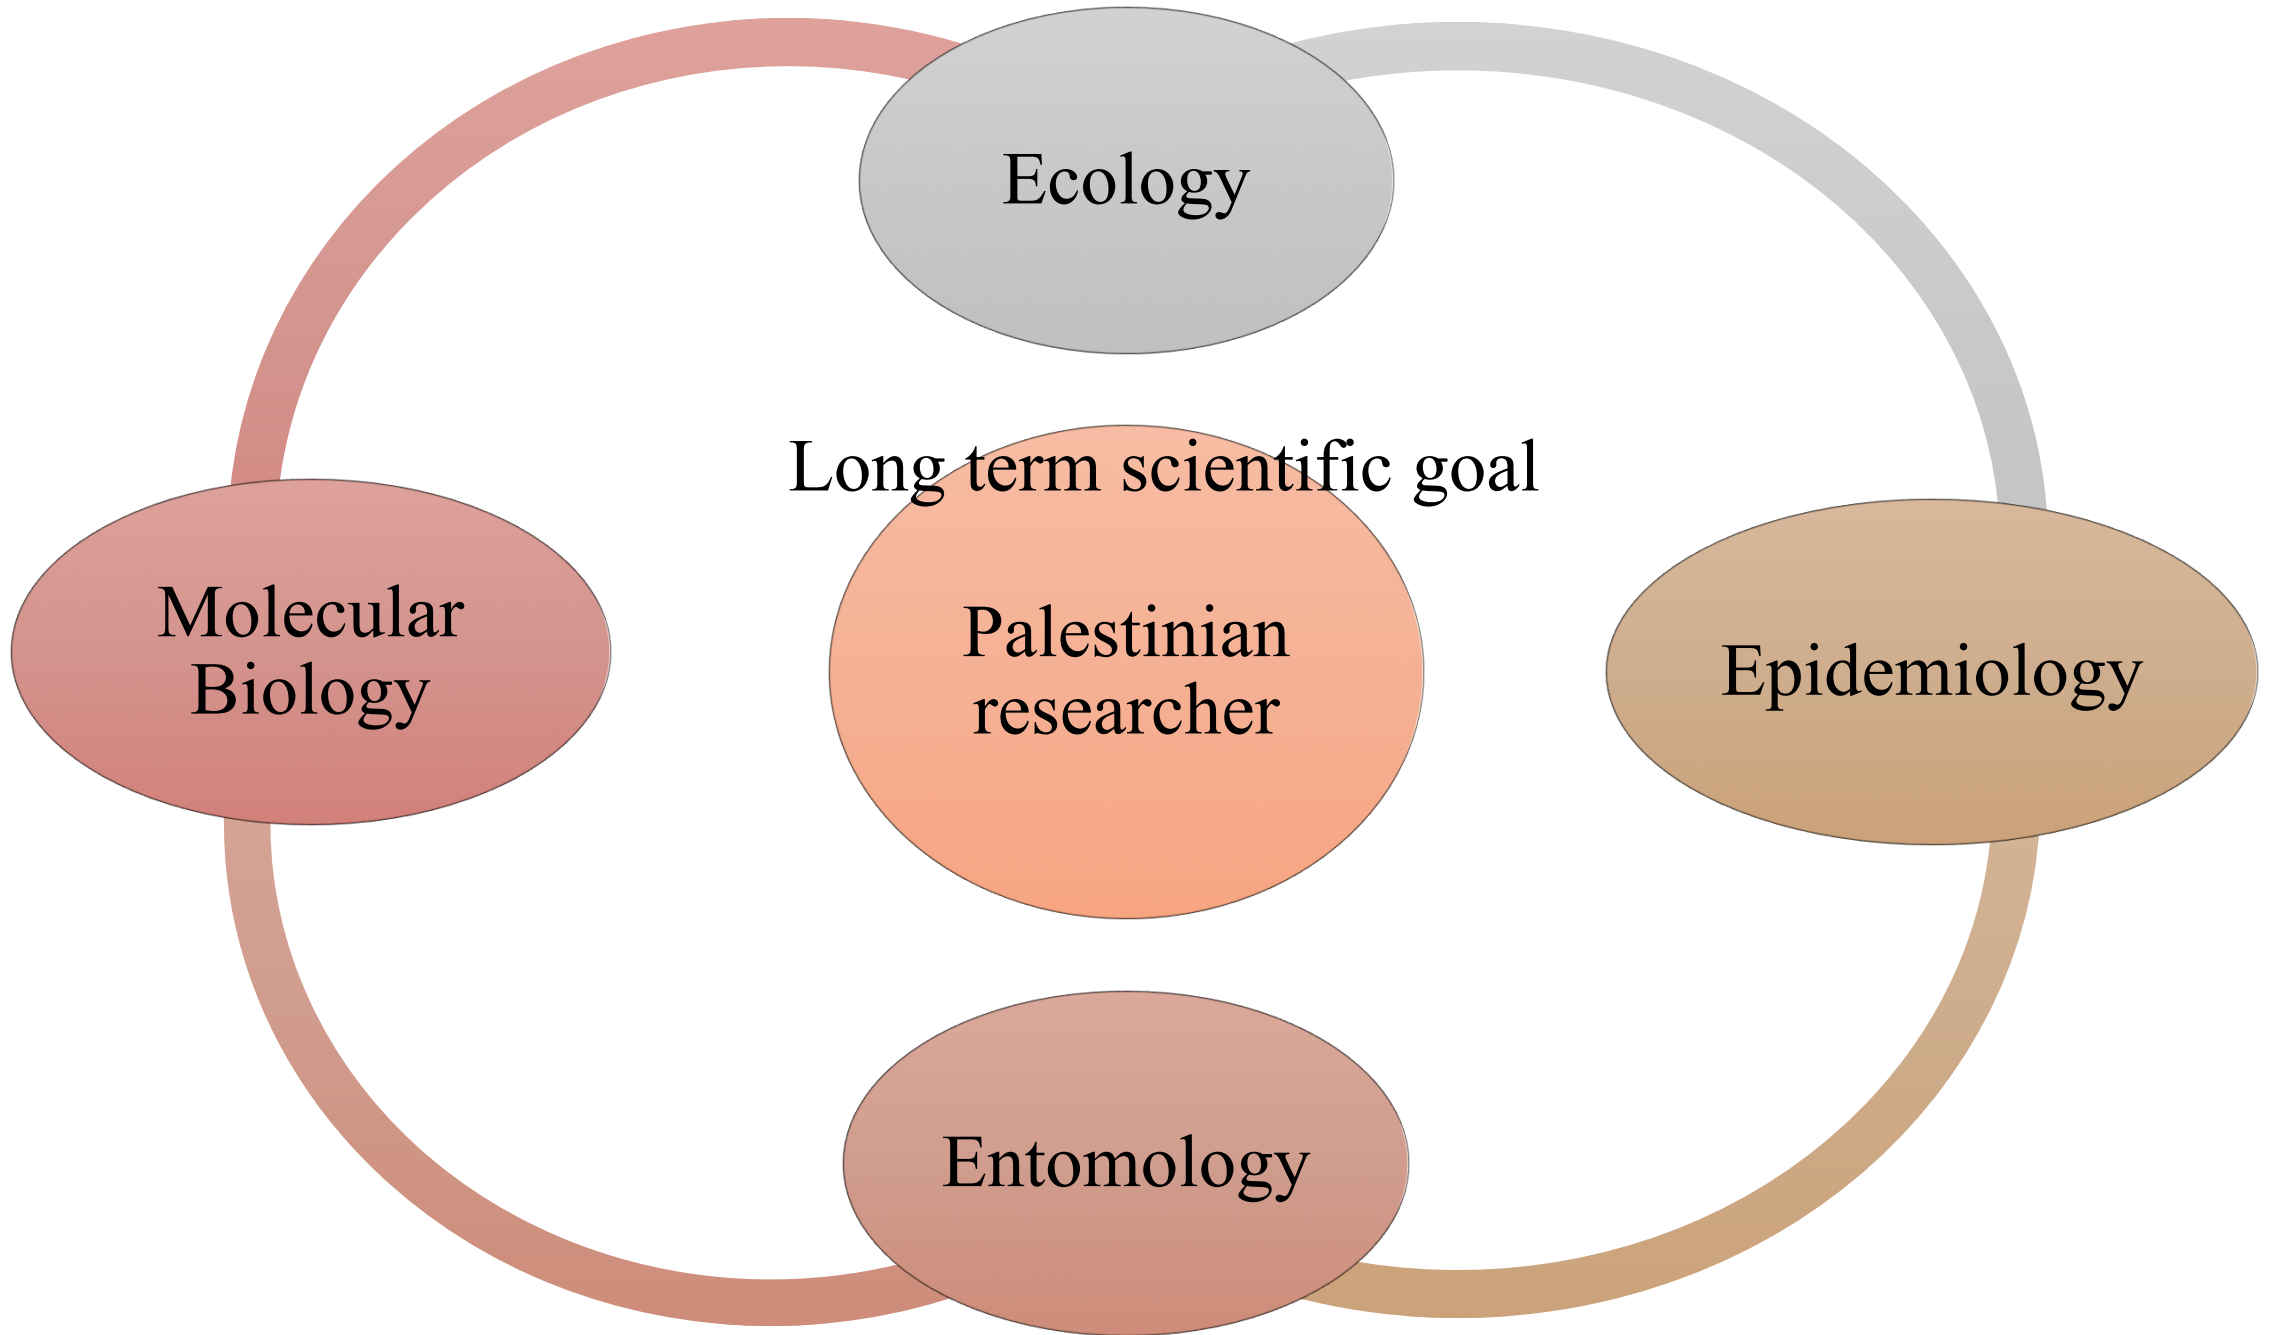

Ben-Gurion University of the Negev

Marco and Louise Mitrani Department
of Desert Ecology

The Jacob Blaustein Institutes for Desert
Research

Sede Boqer Campus

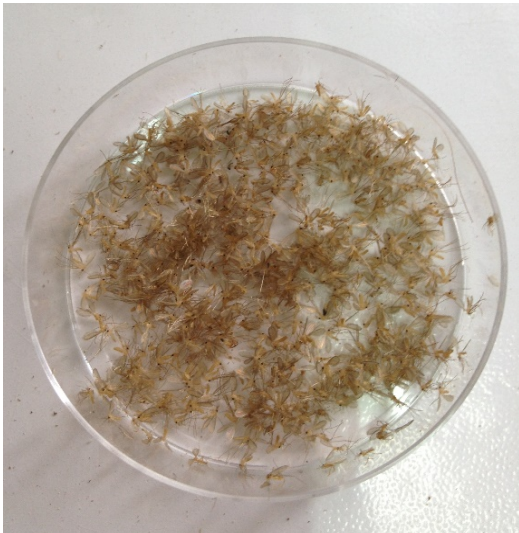

Disease Ecology and Epidemiology of Cutaneous Leishmaniasis (CL) caused by *Leishmania tropica* in Palestine

Does *L. tropica* morbidity will be higher in humans with more contact with the vector or with the proximity of reservoir colonies?

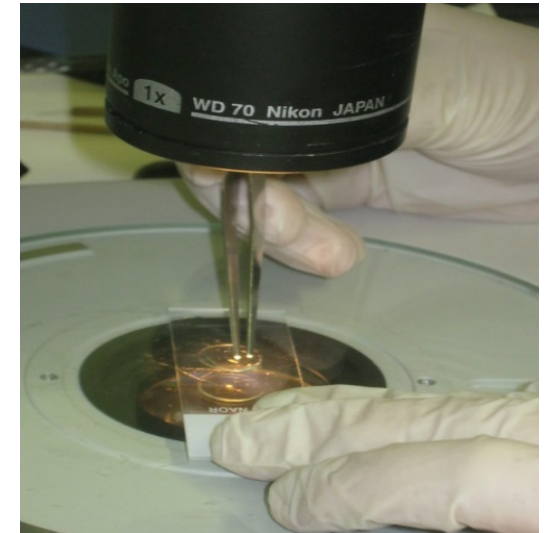

Unique skill that someone else might benefit from

Sand fly identification

In Palestine we have only one person who knows how to identify sand fly, I'm the second one

Difficulties in doing research in local area

Permits to work in our areas ☹

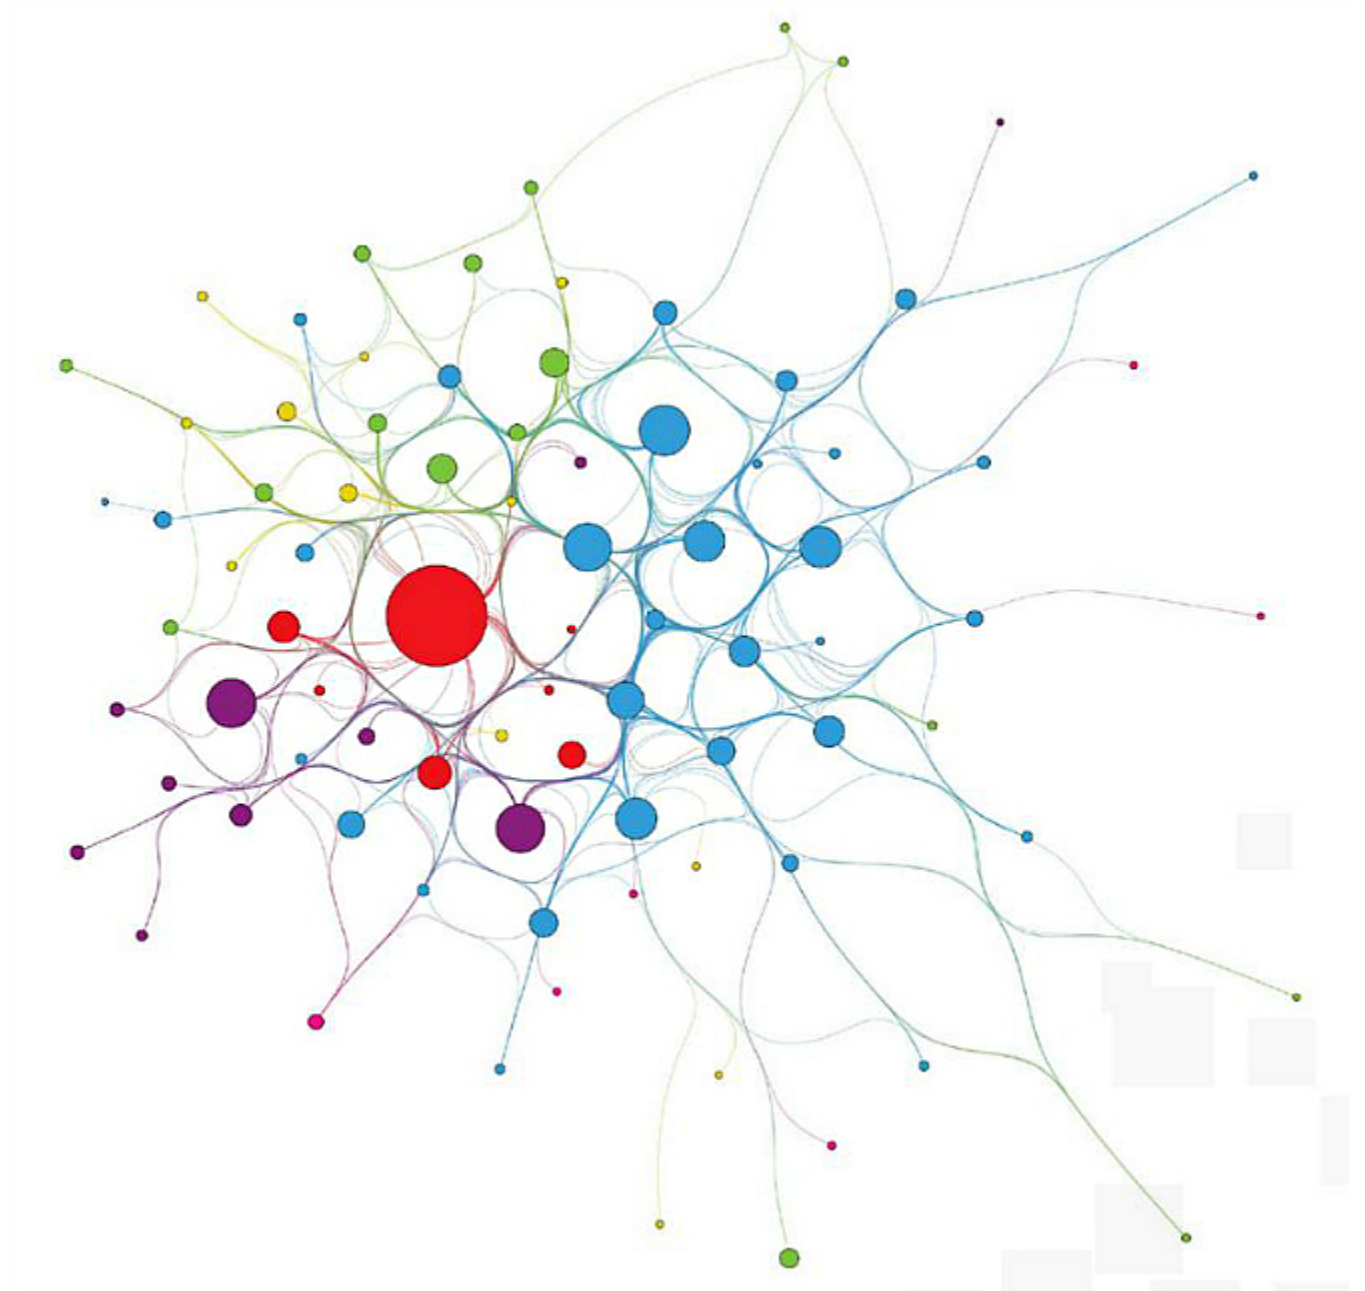

Fund ?? (MERC)

Middle East Regional Cooperation

Limited equipment

Create a research network

Post doc position

The logo for 'post docs' features the word 'post' in a bold, dark grey sans-serif font. Below it, the word 'docs' is in a bold, blue sans-serif font. A thick, horizontal orange bar is positioned between the two words, starting from the left edge of the 'd' in 'docs' and extending to the right edge of the 't' in 'post'.
